

# **Commission on Earth Science and Geodynamics**

**Commission report for 2012-2013: IAHS/IAPSO/IASPEI Joint Assembly in Gothenburg, Sweden 22-26 July 2013.**

The Commission on Earth Structure and Geodynamics (CESG) organized Symposium S501- Structures in the Mantle and Inner Core and S502 – Dynamical Processes in the Mantle and Core

S501 – Structures in the Mantle and Core was convened by T. Lay, and featured 5 oral presentations including an invited talk by V. Cormier on Earth's Inner Core: Links to the Outer Core and Mantle. This session ran for a ½ day. There were 8 posters contributed to the session as well.

S502 - Dynamical Processes in the Mantle and Core was convened by B. Steinberger, and featured 5 oral presentations including an invited talk by T. Torsvik on Stability of Deep Mantle Structures. This session ran for ½ day. There were 4 posters contributed to the session as well.
