

IASPEI

42nd Scientific Assembly 2023

Berlin, Germany

CLOSING PLENARY

Agenda

1. President's Welcome
2. Roll Call
3. Secretary General's Report
4. Financial Statement and Discharge of Accounts
5. Report on Assembly Statistics
6. Commissions
7. Future Activities and Assemblies
8. Bureau & Executive Committee Elections
9. Resolutions
10. Final Words of the President
11. Close of Plenary

President's Welcome

Scientific Program Committee for Lisbon 2025
(Executive Committee, Commission chairs, individual participants)

Wednesday

Closing plenary

IASPEI Commissions and the FDSN conducted business meetings during the whole Assembly

Regional Assemblies in 2021 – 2023

13th General Assembly of the Asian Seismological Commission (ASC)

As part of the virtual IASPEI GA Assembly in Hyderabad, India, with 19 attendees.

37th General Assembly of the European Seismological Commission (ESC)

The 37th General Assembly of the European Seismological Commission (ESC) was originally planned to be held on Corfu (Greece), in September 2020. Virtual conference with 596 attendees, from 19 to 24 September 2021.

38th General Assembly of the European Seismological Commission (ESC)

The 38th General Assembly of the European Seismological Commission (ESC) was held together with the 17th European Conference on Earthquake Engineering as 3rd Joint European Conference on Earthquake Engineering and Seismology (3ECEES) in Bucharest, Romania, from 4 to 9 September 2022, 800 participants from more than 60 countries.

4th General Assembly of the Latin American and Caribbean Seismological Commission (LACSC)

The 4th General Assembly of the Latin American and Caribbean Seismological Commission (LACSC) was held as hybrid meeting in Quito (Ecuador), from 3 to 5 October 2022, with 209 in-person and 33 on-line participants from 28 countries.

14th General Assembly of the Asian Seismological Commission (ASC)

3rd General Assembly of the African Seismological Commission (AfSC)

The 3rd General Assembly of the African Seismological Commission (AfSC) and the 14th General Assembly of the Asian Seismological Commission (ASC) met together as 1st Joint ASC-AfSC Assembly in a hybrid conference in Hurghada, Red Sea (Egypt), from 10 to 13 October 2022. The Assembly had about 180 participants (about 40 on-line) from 38 countries.

IASPEI Change of By-Laws

To give the Regional Commissions better access to information and increase the transparency of decisions within IASPEI, the IASPEI ExeCom changed the IASPEI By-Laws during its virtual meeting 3 April 2023 by adding a new clause to the Paragraph “XIV. Meetings of the Bureau and of the Executive Committee”:

3. The president of each Regional Commission or their designee shall be invited to participate in Executive Committee meetings with consultative capacity without vote.

Newsletter and Website 2021 – 2023

IASPEI Newsletters - to broadcast announcements about its activities, forthcoming meetings and other information of interest to IASPEI members. All Newsletter issues are downloadable from the IASPEI Website.

2021: 4 issues; 2022: 4 issues; 2023: until now 2 issues

All participants of IASPEI activities are assumed to be IASPEI Members; actually: ca. 4400 email recipients

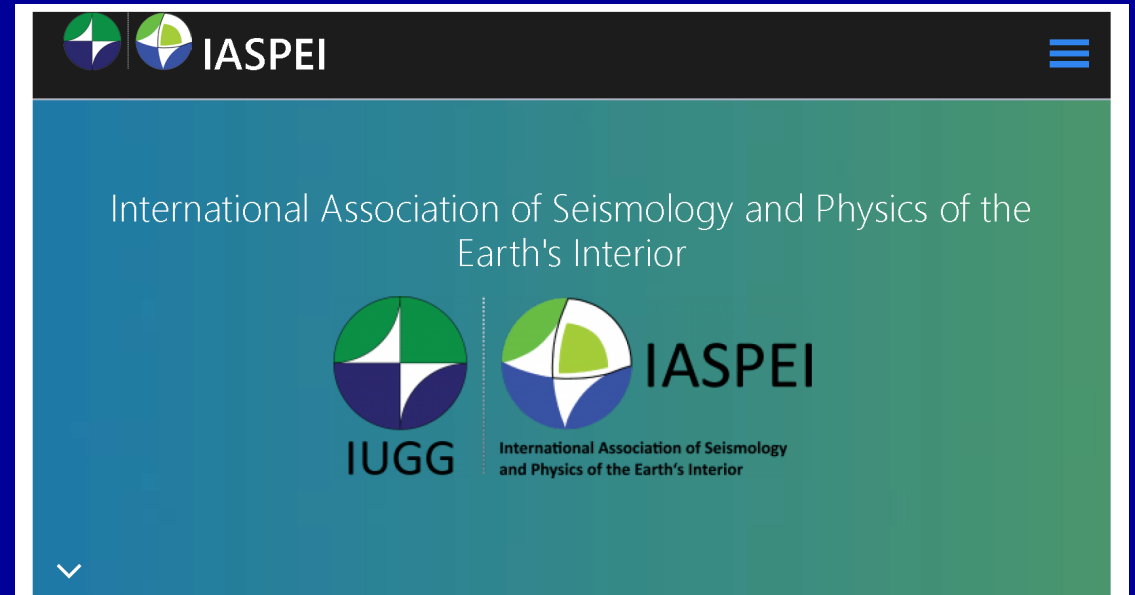

Please keep me updated about email-address changes!!!

IASPEI Website - IASPEI continues development of its Website, which contains organizational information, meeting announcements and other information of interest to IASPEI scientists.

<http://www.iaspei.org/>

All Commissions are asked to provide new material to updated their pages!

The Website is hosted by the ISC. IASPEI is very much indebted to ISC for this help!

The International Association of Seismology and Physics of the Earth's Interior (IASPEI). It is one of the eight Associations that comprise the International Union of Geodesy and Geophysics (IUGG).

IASPEI promotes the study of earthquakes and other seismic sources, the propagation of seismic waves, and the Earth's internal structure, properties, and processes. Scientists participating in IASPEI initiate and co-ordinate research and scientific exchanges that demand co-operation among countries. Work on specific topics is carried out through commissions, committees, task and working groups formed to meet specific needs of new, exciting problems as they

Auditor's report on agreed procedures

To the Treasurer of the International Association of Seismology and Physics of the Earth's Interior

I have carried out the procedures agreed with you for the years 2019-2022 and the procedures set out below regarding the Association's summary account entries in the Association's bank accounts.

The procedures were carried out solely to confirm the availability of documentation for all bank account transactions and are summarised as follows:

1. I have compared your bank account entries you have registered with bank statements from Den Norske Bank.
2. I have checked your calculations of amounts in euros and Norwegian kroner converted to US dollars and the subsequent conversion adjustments.
3. I compared the financial report's summary transactions of bank accounts to the 2019-2022 income statement, which shows income of \$157,780.66 and expenses of \$83,674.77.

The results of the procedures are as follows:

With respect to point 1.

Documentation for all bank account transactions is available in the form of bank receipts for all samples.

With respect to point 2.

The conversion of euros and Norwegian kroner into US dollars is done in accordance with the average exchange rate according to information from Norges Bank's exchange rates for 2019-2022.

With respect to point 3.

The statement of income and expenses for 2019-2022 is consistent with your summary transactions of bank accounts.

My report has been prepared solely for the purposes mentioned in the first paragraph of this report and may not be used for any other purpose.

The report relates only to the above elements and does not cover the Association's administration of the IDEA Fund, the Doornbos Fund and the ESC account.

DK-Vedbæk, 1 July 2023

Auditor:

Report of the IASPEI Audit Committee for the period 2019 – 2022

We have gone through the accounts with the treasurer Johannes Schweitzer for the period 2019 through 2022 and the budgets for 2023, 2024, and 2025. We are of the opinion that the accounts fairly represent the transactions of IASPEI and its financial status.

We have questioned the treasurer about the accounting for expenditures for the assemblies in 2019 (Montreal) and 2021 (Hyderabad-virtual), for regional assemblies in 2022; about the IUGG/IASPEI surcharge income stream, and about the named funds (IDEA, Dornboos, ESC). We have found the explanations fully satisfactory but believe that the grant selection strategy could benefit from participation by the ExeCom. Our analysis identifies the following major trends concerning income and expenditure.

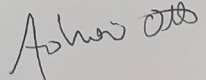

Income decreased by \$43k compared to the previous quadrennium (\$158k for 2019-2022 versus \$201k for 2015-2018).

Report of the IASPEI Audit Committee for the period 2019-2022

- We have gone through the accounts with the treasurer Johannes Schweitzer for the period 2019 through 2022 and the budgets for 2023, 2024, and 2025. We are of the opinion that the accounts fairly represent the transactions of IASPEI and its financial status.
- We have questioned the treasurer about the accounting for expenditures for the assemblies in 2019 (Montreal) and 2021 (Hyderabad-virtual), for regional assemblies in 2022; about the IUGG/IASPEI surcharge income stream, and about the named funds (IDEA, Dornboos, ESC). We have found the explanations fully satisfactory but believe that the grant selection strategy could benefit from participation by the ExeCom. Our analysis identifies the following major trends concerning income and expenditure.
- *Income* decreased by \$43k compared to the previous quadrennium (\$158k for 2019-2022 versus \$201k for 2015-2018).
- *Expenditure* decreased by \$94k compared to the previous quadrennium (\$84k for 2019-2022 versus \$178k in 2015-2018).
- *Administrative costs* decreased by \$10k (\$10k for 2019-2022 versus \$20k for 2015-2018).
- *Operating result:* Income exceeded expenditure by \$74k across the quadrennium, which roughly doubled the reserves to \$149k. Based on the projected budgets for 2023, 2024, and 2025 this appears to be sufficient to keep roughly two years expenditure in the accounts. The overall position is sound, and it is desirable to maintain at least two years expenditure in the reserves, especially given that IASPEI's financial activities are heavily subject to fluctuations in currency exchange rates.
- We give the treasurer discharge for the accounts for the period 2019-2022.
- We thank the treasurer for exemplary bookkeeping.

Jerry A. Carter

Henriette Sudhaus

Adrien Oth

Union Activities

New IUGG officers for the period 2023 – 2027

- President: Chris RIZOS (Australia, IAG)
- President-elect: Mioara MANDEA (France, IAGA)
- Secretary General: Alexander RUDLOFF (Germany, IASPEI)
- Treasurer: Niels ANDERSEN (Denmark, IAG)
- Past President: Kathryn WHALER (UK, IAGA)
- Bureau members: Athena COUSTENIS (France, IAMAS)
Virendra TIWARI (India, IAG)
Andrew MACKINTOSH (Australia, IACS)
- Finance Committee: Archana BHATTACHARYYA (India, IAGA)
Priscilla GREW (USA, IAVCEI/IAHS)
Jan KRYNSKI (Poland, IAG)

Union Activities

The 2027 venue for the 29th IUGG GA is

Incheon, Republic of Korea

Report on Assembly statistics

Number of Symposia	:	208
IASPEI alone	:	21
Joint	:	58
Joint IASPEI as lead	:	9
Joint IASPEI participation	:	21

IASPEI Grants : € 33 000 monetary support
 : ~ 90 registration fees waived

Number of Registrations : ~5000
 IASPEI : ~750 (2nd largest group)

IASPEI Related Pre-Assembly Events

Organized in coordination with the **Commission on Education and Outreach**

- Seismology, Seismic Data Analysis, Hazard Assessment and Risk Mitigation (4 weeks)
- International Training Course on Ocean Bottom and Amphibian Experiment Seismological Data (3 days)

Similar event(s) are also planned for the Scientific Assembly 2025.

ExeCom Member	Hrvoje TKALČIĆ (Australia)

Resolutions

Resolution 1 – Seismic resilience and disaster preparedness in earthquake-prone countries (CoSOI)

RECOGNISING the vulnerability of many countries around the world to earthquake hazard, such as the 2023 Türkiye-Syria earthquakes that led to almost 60 000 deaths,

IASPEI

SUGGESTS the establishment of a dedicated working group (WG) to bring together experts from earthquake-prone countries to share experiences, best practices and lessons learned, in order to improve seismic risk reduction strategies.

RECOMMENDS that the topics of seismic risk reduction strategies and earthquake resilience be increasingly considered in international training workshops, especially those involving scientists in emerging countries, in order to enhance the capacity of disaster preparedness in earthquake-prone countries.

Yes: 90 No: 0 Abstention: 0

RECOGNISING the enormous efforts required to prepare and run the 28th IUGG General Assembly,

IASPEI THANKS and CONGRATULATES the Local Organising Committee and its Chair, Prof. Harald SCHUH, as well as the Scientific Program Committee and its Chair, Prof. Jürgen MÜLLER, for their excellent organisation that has resulted in a memorable meeting.

Yes: 90 No: Abstention:

From the new President
