Regional Assemblies in 2023 – 2025

*The **5th General Assembly of the Latin American and Caribbean Seismological Commission (LACSC)** was held in San José, Costa Rica, from 24 to 28 June 2024. The Assembly had 141 participants among them 18 graduate and undergraduate students. The Assembly featured two educational workshops.*

*The **European Seismological Commission (ESC)** had its **39th General Assembly** in Corfu, Greece, from 22 to 27 September 2024. The Assembly had about 701 participants from more than 50 countries. The Assembly was supplemented with the Peter Bormann Young Seismologist Training Course (YSTC).*

*The **15th General Assembly of the Asian Seismological Commission (ASC)** was held in Belek, Antalya, Türkiye, from 3 to 7 November 2024. The Assembly had more than 300 participants attending from 29 different countries. Two successfully training courses were also given for young scientist during the Assembly.*

*The **4th General Assembly of the African Seismological Commission (AfSC)** was organized in Windhoek, Namibia, from 24 to 28 February 2025. The Assembly had a total of 54 participants with 11 of them attending online from all around Africa. Two short training courses followed after the Assembly.*

All four Assemblies were sponsored by IASPEI with all together USD 26,000

Newsletter and Website 2023 – 2025

IASPEI Newsletters - to broadcast announcements about its activities, forthcoming meetings and other information of interest to IASPEI members. All Newsletter issues are downloadable from the IASPEI Website.

2023: 4 issues; 2024: 4 issues; 2025: until now 2 issues

All participants of IASPEI activities are assumed to be IASPEI Members; actually: ca. 5300 email recipients

Please keep me updated about email-address changes!!!

IASPEI Website - IASPEI continues development of its Website, which contains organizational information, meeting announcements and other information of interest to IASPEI scientists.

International Association of Seismology and Physics of the Earth's Interior

 IUGG IASPEI
International Association of Seismology and Physics of the Earth's Interior

The International Association of Seismology and Physics of the Earth's Interior (IASPEI). It is one of the eight Associations that comprise the International Union of Geodesy and Geophysics (IUGG).

IASPEI promotes the study of earthquakes and other seismic sources, the propagation of seismic waves, and the Earth's internal structure, properties, and processes. Scientists participating in IASPEI initiate and co-ordinate research and scientific exchanges that demand co-operation among countries. Work on specific topics is carried out through commissions, committees, task and working groups formed to meet specific needs of new, exciting problems as they

Resolutions

Resolution 1

RESOLUTION ON THE INTERNATIONAL DAY IN MEMORY OF THE VICTIMS OF EARTHQUAKES

RECOGNIZING the important role seismologists can fulfil in earthquake preparedness;

IASPEI encourages all members and institutions to observe the **International Day in Memory of the Victims of Earthquakes** on 29 April through education and awareness activities.

Yes: 65 No: 0 Abstention: 2

Resolution 2

RESOLUTION ON SPECIAL SYMPOSIA ON “DISCOVERIES IN SEISMOLOGY” AND AN IASPEI DISCOVERY AWARD

RECOGNIZING the value of highlighting and promoting innovative discoveries, such as new phenomena, new theories, and solutions to long-standing problems in seismology;

IASPEI proposes to introduce special symposia at future assemblies to be titled “Discoveries in Seismology” with selected presentations to be given at the beginning of each Assembly after the opening session. One presenter would be selected to be honored with a new IASPEI Discovery Award to be announced at the closing ceremony.

Yes: 55 No: 3 Abstention: 9

Resolution on the Establishment of a Commission for Rapid Interdisciplinary Investigation of Significant Earthquakes

RECOGNISING the devastating impacts of significant earthquakes worldwide, such as the 2023 Türkiye-Syria earthquakes that resulted in nearly 60,000 fatalities, and other recent deadly events;

ACKNOWLEDGING the critical importance of rapid, coordinated, and interdisciplinary scientific response in the immediate aftermath of major earthquakes to capture perishable data and transient phenomena essential for understanding rupture dynamics, fault properties, and secondary hazards;

IASPEI Proposes to establish the IASPEI Commission on the Rapid Interdisciplinary Investigation of Significant Earthquakes (PrepComm RI²SE) as a platform to integrate expertise from earthquake and engineering seismology, geodesy, geology, geo-electromagnetics, geochemistry, hydrology, and social sciences.

Yes: 45 No: 2 Abstention: 20

RECOGNISING the tremendous effort required and challenges faced to prepare and run the joint IAGA-IASPEI Assembly in Lisbon;

IASPEI EXPRESSES THEIR THANKS and **GRATITUDE** to the Local Organising Committee, in particular its Chair, Prof. Dr. Pedro Fernandes Silva and Deputy Chair Prof. Dr. Graça Silveira, as well as the Scientific Program Committee for their excellent organisation that has resulted in a successful and inspiring meeting building many new bridges. Further, IASPEI thanks the hosting institution I.S.E.L. for its support and hospitality.
